

CAPABILITY STATEMENT

Overview

Secure Operating Solutions is a Technology Solutions & Services provider that specializes in Business as a Service through automation, integration, development, digital transformation strategies, and security.

Core Competencies

Business Ops & RMF

- Accounting as a Service
- ERP/CRM/HRMS/E-Comm Support
- Mergers & Acquisition/ Active Directory
- Risk Management & Compliance Mgt.
- Level I-III IT Support/ Project Mgt.

Application Mgt Services

- Data Analytics
- App Development & .NET
- Data Migration & Modern.
- Host & Maintenance services
- DevSecOps

Cyber Security Services

- Cloud & Infrastructure Security
- Data Privacy & Protection
- Vulnerability Management
- Incident Response
- Penetration Testing/Purple Team

Past Performance

Department of Homeland Security

Agency: Federal Emergency Management Agency
Contract: 70FA3020P0000022
Description: Since 2020, providing Accounting System ERP application support services.
 • Customization, programming, and development (Crystal reports, macros, python)
 • Maintenance & upgrade support
 • System OS and Database support
 • Security control advisement and Security compliance assessment preparation

Contract Vehicles

NAWCAD BPA #N6833522Q0133
GSA MAS Contract #47QTCA19D00MM
Equalis Group Contract: EQ-013120-01
TXDIR: TX-DIR-4846

Industry Certifications

PMP, CISSP, ITIL, MSCE, Azure, AWS, VCP, CCNA, Sec+, CASP, CMMC RP/RPO, Elastic, & Scrum, VMWare

NAICS Codes

541611 | 541519 | 541512 | 541511 | 541715 |
 518210 | 541513 | 561499 | 541612 | 334111

Differentiators

- ✓ Provide Services Nationwide
- ✓ DHS Facilities Clearance
- ✓ Grant/Funding Acquisition Services
- ✓ Industry Agnostic Accounting as a Service
- ✓ CMMC RP/RPO – NIST 800-171 Compliant
- ✓ 24x7 Mission Support
- ✓ Provide Virtual CIO Services
- ✓ Is Partnered with Top Rated & Industry Award Winning Firms that have Over 2200 clients in all 50 states

Socio-Economic Status

SDB, AABE, DBE- City of Houston Certified, & TX HUB Certified

We accept credit card payments

INTRODUCTION

We have a Team of certified Microsoft 365 migration Architects with a rich project management background servicing global Fortune 100 and 500 companies. SMEs with mergers, acquisitions, and divestitures. Possesses the ability to lead cross-functional teams with acute attention to detail with a focus on efficiency and system building. Execute projects with speed, accuracy, and exceptional service.

Proven Experience

- **Designed and rolled** out centralized global real-time migration to cloud from Lotus notes and Exchange to Office 365 for over **25 SMBs**, including Loy Yang Power Generation, Ritchie Brothers, Orbital Sciences, Eze Software Group and Georgia Dept of Labor
- **U.S. Air Force** – Consolidate Active Directory/Exchange infrastructure into single forest migrating over **4 million objects**; Quest Migration Manager
- **Conoco Phillips** – Active Directory/Exchange 2010 migration of **35,000** global user objects; Quest Migration Manager
- **U.S. Southern Command** – Active Directory intra-forest migration of **12,000 objects**; consolidated DFS infrastructure; Quest Migration Manager
- **The Salvation Army Australia** – Active Directory/Lotus Notes to Office365 for **10,000 objects**; Quest Migration and Co-existence Manager

Platform/Technology	Migration Tools
Active Directory Exchange Office 365	ODM T5, Migration Manager
OneDrive for Business	ODM T5, Metalogix Essentials
M365 Groups & Teams	ODM T5
SharePoint (On-premises & Online)	ODM T5, Metalogix Content Matrix & Essentials
Google Drives to OneDrive for Business	Metalogix Essentials
FileShare to OneDrive for Business/SharePoint	Metalogix Essentials
Power Apps	Custom Tools
Power Automate	Custom Tools
Lotus Notes	Notes Migrator

AREAS OF EXPERTISE

- Identify application dependencies on Active Directory
- Inventory users, mailboxes, workstations & servers
- VPN only, VDI, or Remote Users
- Change freeze constraints
- Interview stakeholders
- Develop Statement of Work (SOW) to detail Effort, Timelines, and Budget for Migration efforts

- Prepare Migration Strategy & Project Plan
- Support Escalation Plan
- Communications Plan
- Remediate issues identified in AD/EX Assessment
- Prepare source & target environments for migration
- Rebuild resources not able to migrate 'in-place'
- Build Quest Migration Manager Infrastructure
- Establish Directory and Exchange Data Sync
- Update Security on Workstations, Servers & Applications

- Define testing requirements & strategy
- Develop test plans
- Perform test migrations
- IT Test Pilot
- Business Test Pilot
- Approve testing results
- Complete migration plan & support documentation, FAQ

- Submit Requests for Change
- User, Mailbox & Workstation Migrations
- Server Migrations
- AD Authenticating applications & infrastructure devices
- Provide Migration Support

- Post-Implementation Support Review:
- Incidents
- Unresolved issues
- Source environment decommissioning
- Target environment cleanup
- Migration complete

ACTIVE DIRECTORY | EXCHANGE MIGRATION PROCESS

DISCOVERY

Discovery & Analysis of SharePoint On-Premises/Tenant

REMEDIATION

Remediate SharePoint farm if needed, based on the discovery & analysis output

ALPHA & BETA TEST

Install, configure migration tooling and execute test migrations.

VELOCITY

Execute production migration in waves.
Communicate to site owners.

SUPPORT

Post-Migration Support and Source decommissioning assistance.

SHAREPOINT MIGRATION PROCESS

SATISFACTION GUARANTEED
With 100% Success Rate

“Reach out to us for your next data
migration project”
